DATA SHEET

Commodity: Activated Alumina

Type: WHA-104

Applications:

Widely used for defluorination in drinking water

Used for defluorination of other industrial devices

Specifications:

Diameter mm	2-3	1.0-2.5	0.5-2.0
Bulk Density g/cm ³ min	0.70	0.70	0.70
Specific surface area m ² /g min	300	320	320
Pore volume cm ³ /g min	0.38	0.38	0.38
Crushing strength N/sphere min	45	35	10
