DATA SHEET

Commodity: Inert Polypropylene Resin **Type:** I-TR2

For use in water separation

Applications: I-TR2 is inert polypropylene resin, which can be suitable used in water separation and mix bed system.

Product Description:

Typical physical & Chemical characteristics

Matrix Material	PP (Polypropylene)
Physical Form and Appearance	Cylinder
Particle Size	Length 1.4mm±0.1, Diameter 1.3mm±0.1
Shipping Weight (approx.)	430-450 g/L
Specific Gravity	780-820 g/L
Operating temperature	120 °C
Wearability	99.5%
Leachable	0.3%,
